Animal / Plant	Location	Features	Adaptations	Group
(e.g. If it's an animal: Is it a pondweed? A worm? A beetle? Is it a plant? Is it a waterlily? Pondweed?)	(Where did you find it? In the plants? On the surface? At the bottom?)	(If it's an animal: How many legs does it have? Does it have a shell? If it's a plant: How many leaves does it have? Does it have flowers?)	(What could its features be used for? E.g. if it's an animal: swimming, breathing, hunting. If it's a plant: photosynthesis, floating, catching invertebrates)	(Which group does it belong to? E.g. if it's an animal: Is it an insect? A mollusc? If it's a plant: Is it a moss? Fern? Flowering plant?)
				

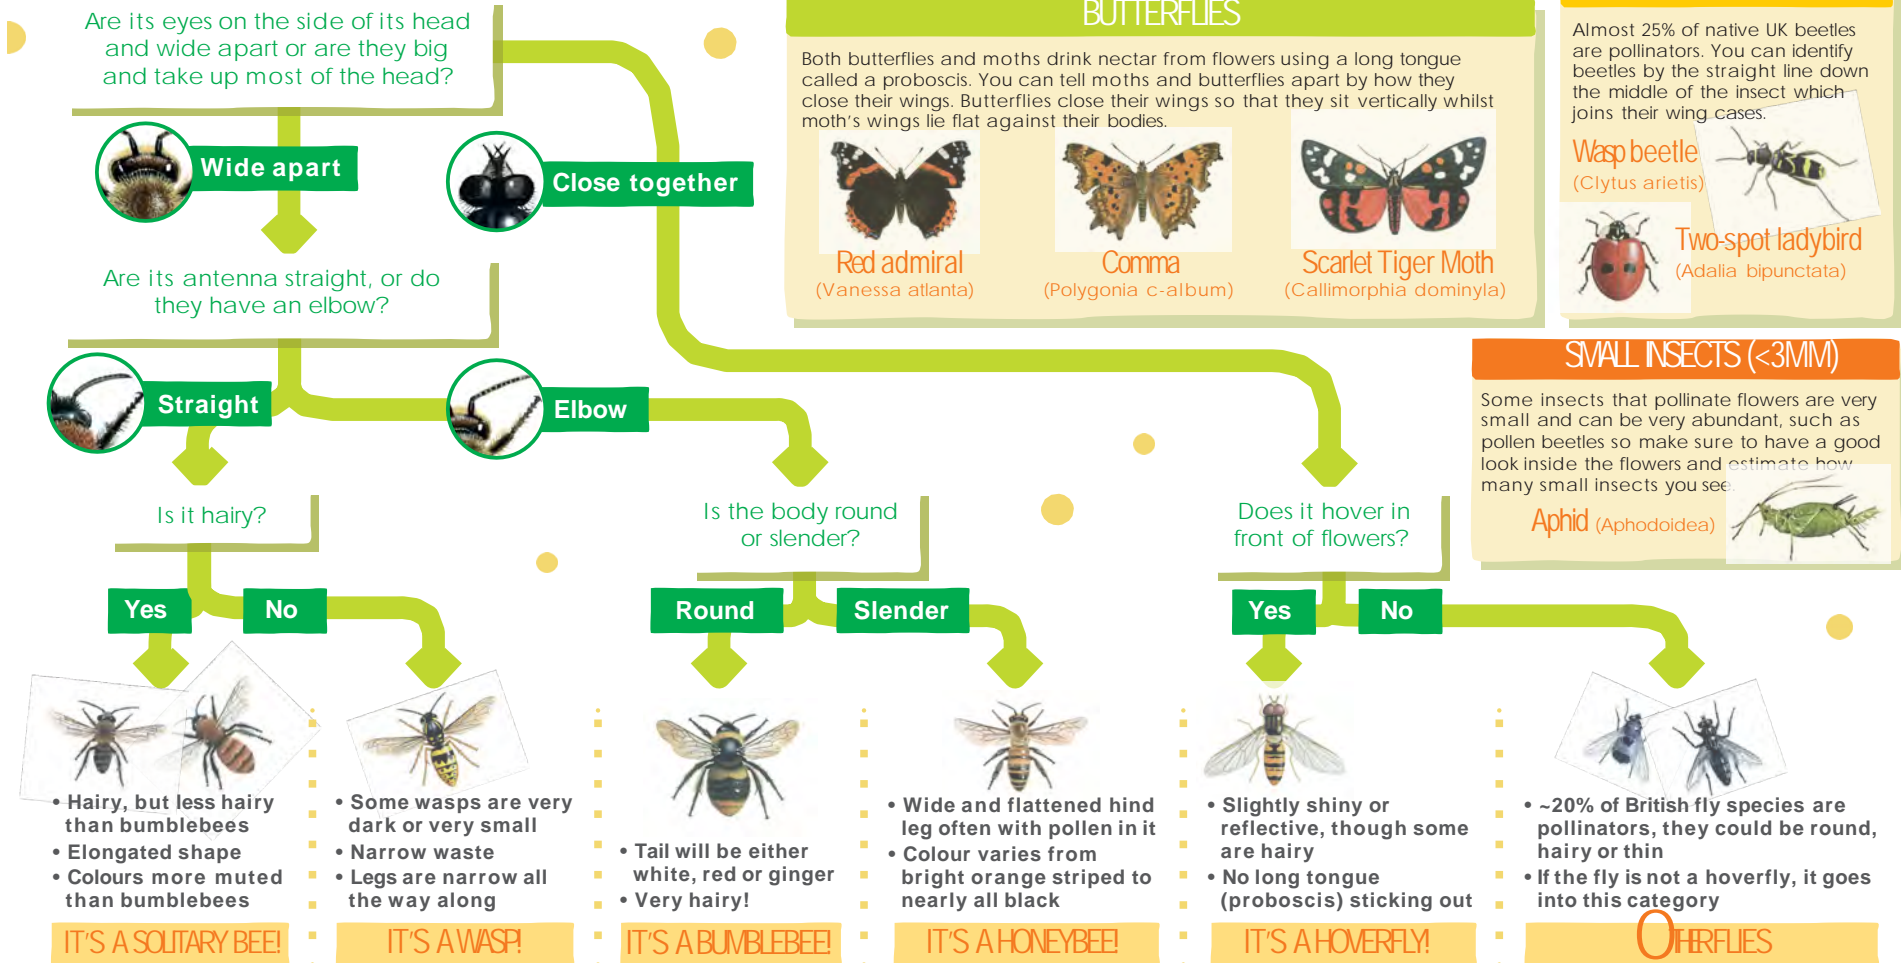

# Pollinator Identification Guide

Pollinators come in all shapes and sizes. Some buzz, some are hairy, some fly, and some crawl around on the flowers. Use this guide to identify the pollinators interacting with flower heads during your pollinator timed count.

## POLLINATORS THAT BUZZ: IS IT A BEE, WASP OR FLY?

A living, evolving rural space where people, nature, creativity, and community co-exist in harmony.

## **Our Mission**

To regenerate land and people in tandem, creating a sanctuary where nature and creativity reconnect us to ourselves and each other.

- **Belonging** for all
- **Wildness** as freedom
- **Participation** over perfection
- **Nature as teacher**
- **Creativity as healing**

- Seasonal food and quality coffee from a farm café that fosters community
- Studio for nature connection, health & wellbeing
- Movement, rhythm, and creative expression
- Regenerative land stewardship and nature restoration
